

THE SADDLEWORTH THREE DAY EVENT

Results for the Harrop Dale, Ravenstones and Scouthead races plus three day results.

Congratulations to all those who completed the full three days of the event; especially Dave Crookes (who achieved the outstanding feat of winning all three races, two in record times, on his way to a new 3-day record) and Graham Bell, Geoff Read and Harry Kelly all of whom broke 160 minutes (only 2 runners managed this last year).

At the other end of the scale thanks to enthusiasts such as Denis Lanfear and Gaz Gallagher who give this race it unique flavour.

The local lads also commented that its a good job there isn't much fell in Milton Keynes or the likes of Kendall and Kevin Farmer would be a real handful - in fact our thanks go to all the M.K. group - it makes putting events like this on worthwhile when we see a club enjoy all aspects of the weekend to the full - sorry the weather wasn't better!

For the rest the going gets tougher - last year 52 people broke 200 minutes, this year it was 76 - just think, next year just 10 secs. per race will make all the difference!!!!

The competition in the team race is also improving, 22 secs separating first and second clubs at the end of day two is pretty tight - the weekend is a real test of the clubs depths.

Finally we must thank all our sponsors without whose help prize lists would be much shorter and we would struggle to keep entry fees down. So thanks to:-

- |                            |                  |
|----------------------------|------------------|
| Phil Kay at the Cross Keys | (Harrop Dale)    |
| Salford Automotives        | (Ravenstones)    |
| Saddleworth Motor Company  | (Scouthead)      |
| Commercial Printing        | (Print Supplies) |

and of course REEBOK for their great generosity in sponsoring the 3-day event overall.

Thanks for coming - see you again next year I hope.

D. Whittam,  
pp. Saddleworth Runners Club

Apologies to Denis Gibson, our only editing mistake, but 10 minutes does make a bit of difference - 41st to 27th in fact!!

I think there are 85 =
